

NUR ANEIS SOFEA

FRONT-END DEVELOPER

Email: aneissofea@gmail.com | Mobile: +6013 3366936 | Location: Kuala Lumpur, Malaysia

Portfolio: aneissofea.com | LinkedIn: linkedin.com/aneis-sofea/ | Github: github.com/aneissofea

SUMMARY

A junior front-end developer, bringing in strong analytical and design skills honed through coursework. Known for reliability, professionalism, and the ability to thrive in challenging environments while working effectively both independently and as part of a team. Seeking opportunities to contribute to impactful web development projects.

KEY ACHIEVEMENTS

Website Optimization Success

Increased website load speed by 25% through optimization techniques

Efficient Project Management

Managed four projects simultaneously, with limited resources, completed them in 41 weeks.

Developed a whole portfolio site

Developed a full portfolio site from design to deployment in 3 days.

Team Training Excellence

Trained more than 10 newcomers, enhancing team proficiency and productivity.

PROJECTS

Portfolio Site

- Designed and developed a fully responsive website with features including a contact form (no authentication), dark/light mode toggle, owl-carousel sliders, and a downloadable resume, using HTML, CSS, Bootstrap, and JavaScript.

Food Order Web App

- Designed and built a pizza site for user to add/remove items to/from their cart and for admin to add/remove items to/from the menu. Utilized Figma for prototyping, Material UI for responsive design, and React with state management for implementation.

News Web App

- Built a full-stack news application where users can authenticate, search for articles via a search engine, and bookmark them. Integrated React, Material UI, and News API for real-time data fetching and UI components.

CERTIFICATION

Certified Associate in Front End Development, TalentLabs.

- Google Cloud Associate Accredited. Completed a 4-month apprenticeship to acquire invaluable skills and hands-on training in the tech industry.

Professional Certification as Front End Engineer, Codecademy.

- Certification that provided the tools and project-based assignments to learn the best practices as a front-end engineer.

EDUCATION

Bachelor of Eng. (Hons) in Mechanical Engineering

Universiti Malaysia Pahang (UMP), Pahang
